VOLUME XVIII. NUMBER 259

ADA OKLAHOMA, FRIDAY, JANUARY 20, 1922.

FIVE CENTS THE COPY

28 NOMINEES IN C. OF C. PRIMARY ARE ANNOUNCED

Final Voting On Board
Members To Be Held
January 25.

BALLOT KEPT SECRET

Seven Highest Men Chosen
In Election To Serve
For Two Years.

Twenty-eight men, nominated by members of the Chamber of Commerce as directors for the coming year, were announced this morning by officials of the C. of C. upon the completion of counting ballots in the primary which ended last night at 7 o'clock.

They are, alphabetically: T. B. Blake, B. M. Bobbitt, Orel Busby, W. J. Coffman, C. E. Canning, L. A. Ellison, A. L. Pentem, Roy L. Givens, C. V. Gowing, Miles C. Grigsby, W. E. Harvey, A. Linscheid, W. D. Little, M. F. Manville, M. O. Matthews, C. C. Morris, J. F. McKeel, Sam A. McKeel, Tom D. McKeown, W. M. Pegg, R. W. Simpson, J. A. Smith, M. C. Taylor, William L. Whitaker, M. C. Wilson, Robert Wimlish, Walter Wray, and Charles A. Zorn.

This order refers in no way to the amount of votes each received in the primary, it was explained.

To Select Fourteen.

These 28 will constitute the ticket from which 14 directors will be selected in the final ballot by the membership on January 25. In future years, directors will be nominated in November instead of January, according to the constitution and by-laws of the C. of C. recently adopted.

A heavy vote was cast in the primaries, officers of the local chamber said and interest shown was described as gratifying. Voting was strictly secret and the standing of candidates will not be made public. At the final election, the seven highest men will be chosen for two year terms on the board of directors, the other seven being selected for one year. Hereafter, each board elected annually will be composed of seven men and all will serve two years. One of the first duties of the new board of directors after it is installed after January 25 will be to select officers of the Chamber of Commerce, including a manager or secretary.

SPORT FANS MAY GET RARE TREAT IN GAMES TODAY

Basketball fans are to be given a real treat tonight at the high school. In addition to a moving picture show, two games are to be played, one by the Ada News and Cement Plant teams and one by the Business College and High School. The former game is a regularly scheduled city league game, but the other is an exhibition one to give Coach Cox's men a chance for a work-out prior to their game Saturday night at Pauls Valley.

The picture show will start at the high school about 7 o'clock, it was announced today. The school is resuming the regular Friday night show, the title of the picture to night being "Snow White." The games will be played on the high school court. The News-Cement game promises to be the feature of the evening from a sport line. If the News men win, they stand a chance to tie the Battery for second place, if the Cement Plant wins, they will regain the ground lost last Monday night.

Legion Sport Show January 26 Hailed As Best in Months

Charles Johnson, athletic manager of the American Legion, has completed his plans for the first real athletic event the legion has staged in months. Five big events have been scheduled and plans are being made for an evening of "up-town" entertainment of indoor sport.

An eight round boxing bout between Battling Fox of Shawnee, and Arch Cooper, Ada, middleweights, a five round bout between Heaglebeck and Jack Dempsey Sparks, middleweights, a five round bout between John Baker and Sailor Adair, bantamweights, a four round bout between Whirlwind Grayson and One Round Hightower, (colored), bantamweights, and a battle royal between five big husky negroes, all heavyweights, are scheduled.

The exhibition will be staged in the American Legion Hall on the night of January 26. The first bout will start at 8 p. m.

Emmett Roach, of 319 West Twelfth street, is reported confined to his room by an injury received while hunting recently.

BELMONT ASKS EXTENSION OF LOCAL PHONES

A petition signed by the citizens of Belmont Addition to the city of Ada was filed with Mayor Gary Kitchens Thursday, asking that steps be taken to force the Southwestern Bell Telephone company to erect poles and make other necessary improvements to furnish service to that section of the city. Mr. Kitchens, through City Attorney T. P. Holt, has filed a formal request with the company for the service. If such service is not given, or preparation taken to give it, by February 1, the matter will be taken before the corporation commission, according to a statement given out today.

Citizens of Belmont have been trying to get service for a long time, one of them stated this morning.

OKLAHOMA WEATHER
Tonight and Saturday cloudy, probable rain or snow in east portion; rising temperature.

POPE IN SHADOW OF DEATH TODAY VATICAN STATES

Churchman Suffers Hard
Relapse at 4 A. M. and
Is Sinking.

ASKS LAST SACRAMENT

Physicians In Worried Consultation As Life Tide
Seems Ebbing.

(By the Associated Press)
ROME, Jan. 20. (6:25 p. m.)—Pope Benedict's condition was grave this evening, but the pneumonia had not spread, it was announced.

The condition of the Pope remained stationary, it was stated at the vatican late this afternoon. Camphor injections are being frequently resorted to. His holiness recognizes those around him.

Cardinals who visited him stated that only a miracle could save him.

ROME, Jan. 20.—Pope Benedict's life hangs in the balance today and fears were expressed at the vatican at noon that his holiness was in a dying condition.

During the early hours this morning from 2 to 4 a. m., there was a sudden change for the worse and the bronchial affection from which he has been suffering several days spread to his lungs.

The Pope asked for an administration of the last sacrament, insisting upon this "if only to give a good example," he said, despite attempts by his attending physicians to dissuade him.

The Pope's physicians were in consultation at the vatican at an early hour and the morning bulletin issued afterwards indicated an extreme condition. Dr. Battistini, however, stated then that while the condition of his holiness was grave it was not hopeless.

About 11 o'clock in the forenoon, however, the Pope's condition became grave, and the administering of oxygen was begun.

At 11:30 the eucharist was solemnly carried to him. Meanwhile, prayers were being said in all the churches and Catholic institutions of Rome on behalf of his holiness and great congregations began to assemble in St. Peter's.

ROME, Jan. 20.—At 12:30 today it was stated that Pope Benedict was in a dying condition.

It was about 4 o'clock this morning when a change for the worst in the Pope's condition occurred. It was especially due to catarrh, which had spread to both lungs, to inability to expectorate, and to pulmonary inflammation, it was stated. Prof. Cherubini, who had been waiting at the vatican, was immediately summoned. He found the Pope mentally depressed and panting for breath.

Vatican Worried.
LONDON, Jan. 20.—It is now definitely stated that Pope Benedict has pneumonia, according to a Central News dispatch from Rome. His condition is causing considerable alarm in the vatican.

ROME, Jan. 20.—Extra editions of the newspapers offered little hope for Pope Benedict's chance for recovery. A great crowd gathered at the St. Peter's hospital to await news from the physicians.

Takes Last Sacrament.
LONDON, Jan. 20.—The last sacrament has been administered to Pope Benedict, states a Central News dispatch this afternoon.

Strong teeth are found in fish which feed on crabs or sea urchins.

FEDERAL DELAY COSTS MILLION

"Government Has Dallied
Too Long On Taking
Up Ford's Plan."

(By the Associated Press)

FLORENCE, Cal., Jan. 20.—Charging that the federal government had lost approximately one and one-half million dollars in the last six months, "by not accepting Henry Ford's proposal to lease the nitrate plant at Muscle Shoals, Ala., were made here today at the meeting of the southern group members of the American Farm Bureau federation, by Dave Silver, their Washington representative.

Mr. Ford's offer, Mr. Silver said, was made to Secretary Weeks on July 8, last and will be transmitted formally, according to the secretary, some time next week. In addition to Mr. Ford's offer, several other offers for the plant have been received, Mr. Silver asserted, adding "but the secretary has admitted that none of them compared with Mr. Ford's and can not even be considered seriously. Furthermore, Mr. Ford's offer has been published to the world for months and yet Secretary Weeks has declined to send the offer with his recommendation to congress, thereby encouraging other bidders to revise their bids."

Mr. Silver declared that when Mr. Ford tells the farmers he can make at Muscle Shoals the kind of fertilizer they need, the "farmers are ready to take his statement at 100 percent." One-half of the agricultural states of America were represented at the group conference, which was attended by representatives from the cotton belt, wheat belt and corn belt, on the Mississippi Valley.

STATE MAY TAKE VOICE TO CAUSE LAW ENFORCING

OKLAHOMA CITY, Jan. 20.—Shortly after noon today Governor J. B. A. Robertson took under advisement the matter of state intervention in the law enforcement situation here, following a conference of several hours with two speaking committees, one appointed at a city mass meeting at the Chamber of Commerce yesterday which favored intervention, and another selected at a mass meeting last night at the court house to protest against state action.

The governor declared that whatever action is taken will not be with out further conference. He stated that conditions which are alleged to have permitted violence must be corrected immediately. The acts of violence referred to are those which have occurred at the packing house zone, incident to the strike of packing house workers, and the lynching of a negro packing house worker.

SHAWNEE CLOSED UP BY SMALLPOX MAYOR DECREES

(By the Associated Press)

SHAWNEE, Jan. 20.—A proclamation closing public schools, churches, theatres, pool halls, dance halls and lodges and other places of public gatherings because of small pox, was issued yesterday by George P. Caruth, mayor, and J. H. Scott, of the board of health.

The schools will be opened on Monday morning, January 23, unless an additional order regarding the epidemic is issued by the board of health. All children in the schools must be vaccinated and no child will be permitted to return without a vaccination certificate.

All other places will remain closed until further notice.

City officials denied the report that a black plague, and not smallpox, is present in the city.

Cleanliness Urged As Method To Keep Smallpox Averted

Although the small pox is raging in Shawnee, there are no cases in or around Ada, according to information obtained from several local physicians this afternoon. All of them urge precaution, however, and the keeping of the body in good condition.

Mayor Gary Kitchens also urges the citizens to be careful about their habits, stressing the danger of an epidemic unless all take efforts to guard against the disease.

Roff Preliminary To Be Held Today On Assault Charge

Assistant County Attorney H. F. Mathis left this morning for Roff where he will represent the state in the preliminary of Joe Thompson, farmer charged with the shooting on Friday morning, January 6, of Jess Blocker, another farmer. The specific complaint upon which Thompson will be tried is assault with intent to kill.

The fight in which Blocker was injured is said to have occurred northwest of Roff and is alleged to have arisen from a family feud. Blocker was injured in the left arm, almost the full contents of a shotgun cartridge lodging there.

Another case of a charge of petty larceny was to be prosecuted today by Mathis.

TWO DIVORCE SUITS ARE PUT UPON COURT DOCKET

Two petitions for divorce, each filed by the wife and each alleging cruelty against her husband, were filed yesterday in the district court. They are Mrs. Velma Lamar vs. Dudley Lamar, divorce and custody of child; Mrs. Rhoda Osborn vs. John Osborn, divorce.

One other civil case, The First State Bank of Allen vs. A. D. West et al., recovery of money and foreclosure, was entered on the district court books.

Kissing is said by some experts to be largely responsible for the spread of dental ailments.

CITY TO OUTLINE UPBUILDING PLAN

Constructive Work for C. C.
To Be Drawn Up
Tonight.

Ada is expected to hop off to night on her flight for a brilliant future when members of the Chamber of Commerce meet at 7:30 at the First Baptist church, there to collect in groups and outline a program of work for the C. C. of this year.

The meeting will start promptly, officers said this afternoon, and because the program has been carefully prepared in advance, there is expected to be no dull minutes in the discussions.

"Tonight is when the C. C. of C. put its goods on the shelf," one member said today. "In this meeting we, the members, are to determine whether or not this organization is really to accomplish the big things that it might this year."

Free discussions of any members of the C. C. of C. believe the city needs will be drawn open in the various group meetings tonight. After all members have had an opportunity to voice their suggestions for civic improvement, cards will be distributed and these suggestions will be listed. Upon the verdict as returned in tonight's meeting, the chamber will base a big portion of its work in the future months.

Although the C. C. of C. is pledged to attempt the things most strongly indicated in the suggestions tonight, it is not limited to that sphere, officers said this afternoon. Chances to do constructive work will be constantly arising, it was pointed out.

A full attendance at tonight's meeting, considered one of the most important of the year, has been urged.

NINTH OFFICER OF N. Y. FORCE SHOT TO DEATH

(By the Associated Press)

NEW YORK, Jan. 20.—Last night's killing of Patrolman Otto W. Oiz, by Frank Whaley, a negro, who had been picked up on suspicion of insanity, increased the total number of New York bluecoats shot to death in the last thirteen months to nine. Eight were the victims of criminal manumit. The other was laid low by a fellow policeman.

Of the slayers two are awaiting trial, two were convicted of murder, one is confined in an institution for the criminal insane, two were exonerated and one escaped without leaving a clue to his identity.

A motive for the last crime is still lacking.

Hulbert Bank Robbed.
HULBERT, Jan. 20.—The First National Bank of this city was held up and robbed at 12:45 o'clock today by three unmasked men who escaped with from \$2,500 to \$5,000.

LAWYERS ENTER HEATED DEBATE OVER ARBUCKLE

(By the Associated Press)

SAN FRANCISCO, Jan. 20.—The court room had been heated and attorneys cooled precipitately when the trial of Roscoe Arbuckle, charged with manslaughter in connection with the death of Miss Virginia Rappe, motion picture actress, was resumed today.

The Hall of Justice, where the trial is being held, was ordered heated more adequately following yesterday's cold snap, which put jurors into their overcoats. Attorneys became heated, however, as a result of an argument over testimony of Zeh Prevost, show girl a prosecution witness. Miss Prevost contradicted testimony she gave at Arbuckle's first trial and repeatedly said she "could not remember."

She was ordered back to court again today and there was some uncertainty about what role she would play in the day's session.

VET POLICEMEN RULE ADA WITH STERN DICTATE

Soldier-Policemen Fill Jails
With Delinquent Men
Before Noon.

LEGION RANKS SWELL

Norman Howard Post Out
In Vigorous Offensive
On Late Joiners.

A new mayor and police force ruled the city today.

The police court ground out more business in the few short hours Friday than it had heretofore done in months. More arrests were made, a larger force of policemen was required to handle the business, and the work of the police clerk was heavier than it has ever been.

Grover Gaar proved his ability to serve as mayor, and also showed he could direct operations of a police force. Although some of his men became exhausted before nightfall and had to be replaced, he continued to drive them, without a let up. The "hoodlum" was selected yesterday was not sufficient, and a closed in truck was put into service instead. On account of the shortage of police badges, the tinier was given some work, and even though his pattern was far too large to be comfortable the men proudly wore them.

A total of 50 cases had been heard up to press time. Although some of the men with charges against them either paid up or were lucky enough to get around and make bond before the "cops" got to them, most were not so fortunate. Some were given the privilege of inspecting the inside walls of the city jail. Others pleaded guilty paid off, and were allowed to go their way, with a warning to be more prompt in their duties next time.

60 New Men Today.
Those in charge of the drive stated that they believed a total of about 60 would be signed and paid up by tonight. Tomorrow the policemen will report for duty as usual and more arrests are to follow.

It was woe to the fellow who, though eligible to be a member of the legion, refused to pay the dues. It was still worse for those who thought they could get out of it by calling the bluff of "arrest." Today bluffs proved to be more than bluffs and it did not take much confinement behind the locked doors of the city jail to give delinquents their share of the "bluff calling act." Few enemies were made by the legion, although some objected spiritedly to having their hard earned \$2.75 whisked away.

Those who thought they would slip by unnoticed were surprised to find that the city was full of plain clothesmen, waiting for a chance to grab them. The wholly never failed to bring the "hoodlums" wagon, and none were overlooked. Tomorrow will be devoted to arresting stragglers, those who were out of town today and those who could not be found.

Here is a list of those on the "police record" up to 1:30 p. m. today:

Hugh Williams, first man arrested and fined, Henry Adams, Jean Edsell, Dudley Young, Jack Price, Earl Brown, Carl West, Fred Gay, E. L. Franks, Bob Adams, O. C. Demoss, Ervin Holly, T. P. Smith, L. H. Paxton, E. L. Brown, Houston Mount, J. W. Roper, Dan Rogers, John A. Northcutt, John Chapman, A. M. Bennett, Cecil Mallory, Jack Morrison, T. C. Derrick, John Chauncey, M. C. Harvey, Cliff Dorsey and Tom Roff.

LIGHT BLANKET OF SNOW FALLS OVER OKLAHOMA

Northern Part of State Is
Reported White Early
Friday Morning.

DROUGHT NOT BROKEN

White Flakes To Turn Into
Rain By Night, Says
Forecaster.

OKLAHOMA CITY, Jan. 20.—Although snow was reported falling in many cities in the northern part of the state this morning, little hope was held out at the weather bureau here for a general snow fall that would be of material help to the winter wheat crop. It was said that if the snow fall continued it would turn to rain later in the day, according to the forecast for rising temperatures.

A light sleet fell in Oklahoma City today followed by occasional flakes of snow. The minimum temperature was 15 degrees, 5 degrees higher than yesterday. Temperatures over the state were the same or higher than the day before, it was said at the weather bureau.

Cloudy and unsettled weather, with rising temperature, is the state forecast for tonight and Saturday. The weather bureau predicted temperatures over the state tonight would run from 18 to 32 degrees.

Warmer at Miami.
MIAMI, Jan. 20.—It began to snow here at 8 o'clock this morning. The temperature was considerably higher and there was practically no rain.

Blackwell Is White.
BLACKWELL, Jan. 20.—Big flakes of snow began falling here at 9 o'clock this morning and the ground was soon covered with snow. Every indication was that the snow fall would continue through the day.

At Bartlesville, Too.
BARTLESVILLE, Jan. 20.—A light snow began falling here at 9 o'clock this morning.

Snowing at Enid.
ENID, Jan. 20.—Snow, which began falling here at 8 o'clock this morning, was gradually increasing in volume and the possibilities were that it would continue for several hours. This is the first snow of the season here and is expected to be beneficial to the wheat crop.

Ponca City Blanketed.
PONCA CITY, Jan. 20.—Snow began falling here at 8:30 this morning and half an inch was on the ground in an hour. The temperature had risen since yesterday.

Sleet at Ardmore.
ARDMORE, Jan. 20.—Sleet covered the ground here this morning, following a heavy fall last night. Several accidents were reported to the police caused by automobiles skidding on the frozen pavement.

Slick Streets Make Drivers Be Careful In Business Areas

Slick streets here today, caused by a fine mist last night which turned into a light sleet this morning, slowed up traffic in the business district of town. Motor vehicles crept along over the slick surface and careful driving had averted accidents up to noon today.

About 6 o'clock this morning the first mishap since the cold wave struck here was reported when a horse hitched to an Armour and company wagon slipped and went down in the middle of the street, near the Chamber of Commerce rooms. A broken shaft on the wagon was the only damage reported.

Former Service Men On Sheriff's Force With Legion Leader

(By the Associated Press)

ARDMORE, Jan. 20.—With the exception of one deputy the new sheriff's department under Ewing C. London is complete this morning and all departments are functioning. A number of the new officers here are former service men who have rallied to the call from the adjutant of the local American Legion post.

The officer to be appointed will work in the Wilson district, it was said. Oscar Johnson of Healdton will serve in the Healdton district. Numerous reports of the county yesterday and last night from the office, but after investigation it was learned that these were fake calls. It is believed this was the work of persons who were trying to harass the new regime. Police officers in Ardmore, Wilson and Healdton have offered their support and co-operation to the new sheriff, he said this morning.

BIBLE THOUGHT FOR TODAY

DEATH OR LIFE.—To be carnally minded is death; but to be spiritually minded is life and peace.—Romans 8:6.

Zoologists tell us of a seafish that is too weak to make much headway hustling for himself, but kindly nature having provided him with a vacuum pad on top of his head he attaches himself to some stronger and more active fish and is thus hauled about. The big shark is one of his favorite friends in need. The shark not only gets about lively, but the waste morsels of his meals afford good picking for the remora, as the fish is called. However, that fish has his counterpart among the human race. How often it is that we see men with too little hustle to do anything for themselves. They just hang on to some one stronger than themselves, content to be moved by his power instead of their own and contented so long as they can pick up salary enough to stay out of the poorhouse.

The Muskogee Times-Democrat says that one of the most vital features of the next administration is the elimination of politics from the schools of Oklahoma. That is sound judgment. Playing politics with the schools of the state has cost the people untold sums of money and damaged the schools beyond measure. We have always contended that the schools, from the highest to the lowest, should be entirely divorced from politics and that the way a man voted should cut no figure either for or against him in the matter of positions in the schools. There can be no real and lasting efficiency in our educational system until competence and not politics is made the prime requisite for holding a position.

The East Central Teachers College continues to grow and improve in efficiency, according to all reports. For a decade and more the school has been making itself felt in this part of the state, raising the standard of scholarship and sending more light into the darkened corners. With by far the best faculty now that the college has ever had, the outlook is bright indeed. In our opinion President Linscheid is doing as much as any man in the state to build a citizenship that is worth while, and his usefulness has just begun.

The merchant marine is seeking a subsidy from the government. They have been after congress for the past half century but have never made much headway. As we see it the shipping industry is no more entitled to a bonus from the pockets of the people than any other industry. The government stands for a good deal but this is going a little too far and the precedent is altogether too bad to establish.

China at this time affords an interesting subject of study. The ancient empire has at last awoke, and the four hundred millions are beginning to take on western airs and acquire western ideals. The United States has for many years shown an interest in China and now China is seeking the continued friendship and help of the new republic in the western world. China can profitably be made the subject of study for many nights.

The Democrats of Oklahoma are not going to be caught napping this year. They learned their lesson two years ago and this time the campaign will be the real thing. In view of the fact that a flood of prosperity did not set in the day after Harding's election, as was promised by the Republican campaigners, the g. o. p. in Oklahoma will have a lot of explaining to do this time.

Ada is becoming more of a church town, we are informed. A church going town is always sought by heads of families seeking a permanent home. One of the best ways to build a city is to build schools and churches. A man may not object to living in a Godless town, but he does object to taking his wife and children there.

The News hopes to see the Ada High school orators and debaters win high honors in the district and state contests this year. This line of work is equal to a course of study any time and the results are lasting. The Ada teams have given a good account of themselves in times past and we hope to see them among the winners this year.

While some evils may be corrected by legislation, no amount of legislation can give a man enough to lift him from the level when he happened to start in life. In the final analysis the greater part of the responsibility for success or failure rests on the individual himself.

The Chamber of Commerce is doing things. If you are not already a member, you should become connected without delay. Several new industries will probably be located here in 1922, and you will want to have a part.

Are you a friend of O. M. Gloom? His life has been threatened, and it is time that all his friends get busy in his behalf.

MRS. LLOYD GEORGE PLAYS MOTHER TO CHILD OF DISABLED WAR HERO

Mrs. Lloyd George with the baby.

The Forum of the Press

No Lack of Opportunities.
(Manchester (Tenn.) Times.)

We sometimes hear young men say that there are no opportunities to accumulate money, that the wealth of this country is getting into the hands of a few rich families and they can manipulate it so as to keep it there, leaving the rank and file only a chance to take out a bare living at best. Nothing is farther from the truth.

It is true that "big fortunes" are being piled up, but not by the sons of rich men, such instances are rare. The men who are accumulating fortunes, were unknown to the financial world just a few years ago. Many of them were wage earners who knew how to save and how to invest their savings and make them work for them. They were quick to recognize an opportunity and profit by it.

One generation of a family will accumulate a fortune. Sometimes the next generation, because of frugal early training, will maintain it, but the third generation, reared in idleness, will dissipate it and in doing so provide opportunity for a fortunate. This is not only true in the commercial and industrial world, it is true in agriculture.

Will Hays—Landis of the Movies?
(Wichita Daily Times.)

The resignation of Will Hays as postmaster general is the first break in the front line of the administration forces. His assumption of the duties as virtual czar of the movies is the first constructive step of moment that the movie people have ever made.

The resignation of Hays has caused scarcely a ripple on the surface to those who actually know what is going on behind the scenes. Hays was reluctant to enter the cabinet but felt that circumstances forced his acceptance of a place therein. He finally took up his duties with the mental reservation of resigning in due course. The place was forced upon him by his enemies rather than his friends. Hays was never popular with the old guard of the republican party.

Ten years ago Will Hays was hardly known beyond the confines of the county in which he lived. He was even not a big man in the small town of Sullivan, Indiana, but he was a hustler. His outstanding characteristic undoubtedly was that of a successful director of the oil brigade—for he could pour oil with a master hand upon troubled waters.

In 1914 he came to the front in Indiana politics but it was not until 1916 that he really established his place as a political harmonizer. With magic adroitness, almost, he cemented the disturbed relations of the liberals and the stand-patters in Indiana in the campaign there that year. When the war broke out everything at the state capitol at Indianapolis was "Hays-Hays"; no matter what you wanted you had to see Hays. If you did not want anything but were merely stopping over for a day or so you were urged to meet this human dynamo. Kindly old Jim Goodrich was governor but Hays was the power. His work as head of the state bureau of the council of national defense was so strikingly successful he soon looked, as Alexander is reputed to have done, for more world's to conquer. The next biggest job in sight was the chairmanship of the republican national committee, which was made vacant by the resignation of Wilcox. The election of Hays to this job was the successful fight of the last organized forces of progressives who were then back in the republican party. They put Hays in and the old guard accepted him with only fair grace. One of the small group of national leaders of the old guard once remarked that "Hays is a nice boy, he makes a good impression and can handle the newspaper men, we'll let him do the talking but we will run things when the time comes." But he was wrong for as long as Will Hays was boss in name he was boss in fact. Because of that trait in his make-up he never secured either the trust or friendship of the old guard.

The result of this situation was that he was forced into the cabinet

although as he is reported to have stated to a close friend something over a year ago, "I am a young man, I have but very little of the world's goods, I really cannot afford to go into the cabinet when it will cost me more to live than I receive in salary. More than this I have been offered a position in the business world which will make me financially independent but my enemies are so desirous of keeping me out of the cabinet that if I do not take the place offered I will be discredited. What in the dickens am I going to do?"

He was advised by this friend to take the place, remain on the job for a year or so and then pick up his business threads. This is exactly what he has done. But his enemies not knowing this have groaned long, loud and often.

PEOPLE OF OUR TOWN

The Merchant has Worried himself Baldheaded because he is Caught with a Lot of High-Priced Goods, but tomorrow he will Slash Prices to the Bone, run a Big Ad in this Paper and Get Rid of Them. Then he will Stock Up with the New Low-Priced Stuff and run a Safe-and-Sane, Before-the-War business.

Anthracite coal was first discovered to be valuable as fuel in 1808.

Pimples Keep Young Men Down!

They Make Women, Too, a Puzzle!
How S. S. S. Stops Skin Eruptions Positively.

Pimples and skin eruptions have a price—you pay for every pustule, black-head and pimple on your face. Pimples produce prejudice and prevent prosperity. Your heart may be gold,

S. S. S. Will Rid You of the Crueling Pimple-Calamity.

but who wants to kiss eruptions? Pimples don't look like the owners of anything. Pimples women, too, are puzzles, with no prospects and no power. Young men and women, here's the positive way out. Physics and purgatives will fail. What you need is a scientific blood-cleanser. S. S. S. is one of the most powerful destroyers of blood impurities. You can prove this in a short time. S. S. S. has been passed on by a jury of millions of people just like yourself. It is considered one of the most powerful vegetable blood-purifiers and flesh-builders in existence. That's why you hear of so many underweight people putting on flesh in a hurry, why you hear of so many rheumatics being freed from this scourge, with S. S. S. Start today with S. S. S. and see your face clear and your skin get ruddier, your flesh firmer. It will give you a boost in your career. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Political Announcements City of Ada

The News is authorized to announce the following as candidates for the respective offices of the city of Ada, subject to the primary election:

FOR MAYOR—
W. H. FISHER

NEW LABOR UNION FOR HAWAII NOW BEING DEBATED

(By the Associated Press)

HONOLULU, T. H., Jan. 20.—Workers of all races in Hawaii are considering an international organization among the rank and file to be known as the United Workers of Hawaii, with the aim of readjusting trade unions in Hawaii and building up an industrial form of organization that will unite in one body all the wage workers without discrimination as to sex, race, creed, craft or color, and gaining a direct voice in the management of industry, according to the preamble to the constitution being voted on by the various bodies.

"We believe that labor is entitled to voice in the management of industry and has a right to determine the conditions under which it shall function, to the end that it shall receive the full value of what it produces," the preamble continues. "We desire to co-operate to the fullest extent with the various national and international trade unions and with the American Federation of Labor, but we call attention to the fact that conditions in Hawaii are different from those on the mainland or in any other country, and we insist that we are the best judges of our own needs and of the tactics to be followed to secure the ends we have in view."

The objects of the organization are stated as:

"To bring within the folds of one central organization all human beings who are engaged in the necessary work of society.

"To bring about class-consciousness and solidarity among the workers.

"To educate the working class in modern economic problems and tactics.

"To gain for the workers a direct voice in the management of industry."

The Brazil nut tree does not begin to bear fruit until it is about fifty years old.

Publicly Indorsed!

Tens of thousands of men and women throughout the United States and Canada, of all ages, and in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse, have testified publicly that they have been fully restored to their normal health, strength and weight by the use of Tanlac.

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour gassy stomach, coated tongue, foulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and terribly depressed, depressed feelings, state that they have been entirely relieved of these distressing symptoms and restored to health and happiness by Tanlac.

That is THE REASON WHY the demand for Tanlac, the powerful Reconstructive Tonic and body builder, has broken all world's records.

Tanlac is sold by M. A. Waits and all leading druggists.

TOLL BRIDGE MEN ARE EXCLUDED AS CLERKS

OKLAHOMA CITY, Okla., Jan. 20.—Collectors on the toll bridge across the Arkansas river at Muskogee are not entitled to participate in the benefits accruing from the clerks' national agreement, according to a decision of the United States railway labor board received here. The three men, who work in shifts, selling tickets and collecting toll charges appealed to the labor board for increased compensation on the ground that their work was similar to that of ticket clerks.

In another decision, a copy of which also has been received here, a claim for reinstatement of H. E. Harlow, a brakeman employed by the Kansas City Southern railroad, was denied. Harlow was suspended after he was alleged to have permitted a flat car to be broken in two while switching onto the Midland Valley tracks at Panama, Okla.

2,200 Children Are Housed in Buildings Made for Only 1,500

(By the Associated Press)

DUNCAN, Okla., Jan. 20.—How to care for 2,200 pupils in school buildings with a capacity of 1,500 is the task that today confronts the Duncan school board and Supt. Hughes B. Davis.

Three large ward buildings are crowded and packed far beyond their capacity for efficient work, school authorities says, and the large high school building completed about a year ago, and to which several additional class rooms were added last fall, has cared for the overflow from the ward buildings as well as its own increase until it is impossible to crowd in another boy or girl. Registration closed Monday with the beginning of the second semester.

The city has voted all the bonds possible under the law, and school authorities point out that nothing more can be done in the way of building until the assessed valuation of the city is increased. It is expected that the valuation of the city will show at least a \$1,000,000 increase this year, this being the estimate of the county assessor who is working here this week.

CUT IN CAVALRY TO TAKE TROOPS OFF OF BORDER

(By the Associated Press)

WASHINGTON, Jan. 20.—Regret that reduction of cavalry forces incident to the reduction of the army in strength to 150,000 men had made it impossible to keep "a sufficient of cavalry, before officers at least border," was expressed by Major General Willard A. Holbrook, chief of cavalry before officers attending the annual meeting of the United States cavalry association here.

The fitting out of the cavalry guard on the border, the general said, had been three object of much criticism, but he added, could not be helped. He pointed out that the greatest bulk of the cavalry was now stationed along the border.

COLLEGE CAGERS LEAVE TO ENGAGE TULSANS

Coach Thompson left today for Tulsa where his basketball team will mix with the Tulsa University. Last reports were to the effect that the Ada men were in good condition for the game, and although the dope is far against them, they are confident of giving the Tulsans a run for the honors.

Little, Evans, Chism, Newton, Waner, Crawford and Snow were taken on the trip. They will play at Tulsa today and Saturday.

A Bargain Rarely Obtainable

"Crispy an' crunchy an' all-the-time-crackly! An' never tough or leathery! Gee, what would happen if Kellogg's got all eaten up before tomorrow!"

You certainly realize the difference in Corn Flakes when you eat Kellogg's

From the instant you open the generous sized package till they're tucked away in great and tiny "bread-baskets," Kellogg's Corn Flakes are a never-ending delight! You can't even look at those big sunny-brown flakes, all joyously flavored, crisp and crunchy, without getting mighty hungry! Kellogg's are never leathery or tough or hard to eat—they're just wonderful!

Such a spread for big and little boys and girls—the sweetheart of fine white southern corn kernels deliciously flavored and deliciously toasted in Kellogg's own way! You can't imagine anything more joyous to eat, or more ideal for fussy appetites at any hour!

Kellogg's Corn Flakes are childhood's ideal food! Kiddies can eat as much as they can carry! Every mouthful makes for health.

Don't just ask for "corn flakes"! You say KELLOGG'S—the original kind in the RED and GREEN package.

KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. See coupon inside every package of KELLOGG'S Corn Flakes which explains how you can obtain another copy of JUNGLELAND.

THINGS OF
INTEREST TO
SCHOOLS

NUMBER SIX

Washington Building
News Notes

Washington school won the ciphering match against Hays school this week and had seven pupils on the floor when last Hays student went down, each having twenty representatives.

Washington's third grade spelled Hays third grade and won by a small score.

Washington's fifth grade spellers lost to Hays last week the only educational match that has been lost this year by any grade in Washington school.

Willard fifth grade went down in defeat to Washington fifth grade in spelling in one of the hottest contests the writer has witnessed lately. Washington had only one speller on the floor when Willard's last pupil went down.

Leon Bradley was one pupil that Willard failed to down. We were spelling on the last page in the fifth grade when the little Bolton girl from Willard, the last girl on their side, missed.

Examinations are on this week and they are getting more attention than contests and outside activities.

Editorial.

A good habit which boys and girls should cultivate is to look for the best in others.

Every one of us has weak points; every one of us has faults; so it is easy for us to make the worst of one another, if we constantly fix our attention upon our weaknesses. But if we love what is lovable in those around us, life will seem much more worth while and it will be a pleasure to be with friends.

Daily Bible verse.

"Let the words of my mouth and the meditation of my heart be acceptable in thy sight, O Lord, my strength and my Redeemer."—Psalms 19:14.

Stonewall scouts will have several to pass their second class examinations soon. Four second class scouts will move up into the first class ranks. The Stonewall second team in basketball will play a team of scouts from Ada Saturday evening at 5 o'clock at the high school building. They will also hold a father and son luncheon soon.

Troop No. 3 won the basketball game from Troop No. 5 this week by a small score.

Francis scouts will play two basketball games with Ada scouts Friday and Saturday. One team will come here and the other stay at Francis. When the Ada High School Sunday afternoon in the in... i Glee club goes to Francis Sunday afternoon in the interest of scout extension work, several boys there will receive first and second class badges.

A program given by Ada scout officials Sunday at Center and Vannos was well received. Large audiences greeted the glee clubs. Robert Mullins is the first boy in Vannos to become a second class scout.

Attend your scout meetings to night and be sure to register. Work on your second class and first class tests.

Week's Happenings at
Hays School

Hays fifth grade defeated the fifth grade of Washington in a spelling match Friday afternoon at Hays the score was 5-0.

The sixth grade boys' basketball team defeated the seventh grade team by a score of 13-10.

The seventh grade defeated the eighth grade Friday afternoon, score 14-2. The line up for the seventh grade was: forwards, Chester Cotton, Richard Wheeler; center, Billie Kilcrease; guards, Curlee Rogers, Cecil Burkhardt.

The girls' basketball team defeated Willard in a fast game in the college gym Thursday afternoon. The final score was 13-10. This was by far the best game the girls have played this season, and was also the first time they have been able to defeat Willard this year.

Hays second team of boys basketball lost a hard fought game with Willard's first team, score 11-9.

The Mothers Club met Friday afternoon with a good attendance. The B first pupils sang for the mothers. Mr. Hickman gave an interesting talk on school needs. The mothers bought two pictures for the school, one for the upper grades and one for the lower rooms. They were voted to the room by the mothers. Mr. Emerson's room was voted the picture up stairs, and room two, down stairs.

Hays fifth grade spelling team spelled Willard's fifth grade Tuesday afternoon at Willard and defeated them by a score of 8-0.

The first team of girls' basketball played the high school Tuesday afternoon in a practice game. The final score was 7-10 in favor of the high school.

should accompany these articles and either milk or cocoa given the child to drink.

Heavier Foods for Noonday Meal.

The dinner, which should be the largest meal of the day, should contain such nutritious foods as meat soup, cream soup, baked potatoes, lamb stew and carrots and potato, green vegetables of all kinds. In addition there should be a light desert and milk to drink.

Supper should be light and wholesome. Baked potatoes served with cream and salt or with milk gravy make a good dish. Bread and milk may also be used at this meal, provided it has not been used at any other meal during the day. A light soup is also nice for supper, which should in all cases be finished with some light, sweet cookies, sponge cake, marmalade, sandwiches, baked custard, cup cake or floating island.

ROAD BOOSTERS
AT DUNCAN FOR
MERIDIAN MEET

DUNCAN, Okla., Jan. 20.—More than 100 delegates from the counties through which the Meridian highway passes in Oklahoma were here today to attend the Meridian highway district convention. Counties represented are Garfield, Kingfisher, Canadian, Grady, Stephens and Jefferson.

Headquarters for the convention have been established at one of the larger hotels and the sessions of the convention will be held in the district court room. This evening the delegates will be the guests of the Duncan chamber of commerce at a banquet.

Another feature of the entertainment program for this afternoon will be an automobile excursion over the city and surrounding oil fields under the personal direction of City Manager John Ewell. Approximately 50 motor cars have been offered by Duncan citizens for this trip.

Among the visitors here are John C. Nicholson of Newton, Kan., president of the Meridian Highway association; F. L. Patten of Kingfisher, president of the Oklahoma division of the association, and Mr. Swepston of Tulsa, Tex., president of the Ozark trails association, a branch of whose system passes through here. State and federal highway engineers also are here.

According to the program, the meeting is to be called to order by F. L. Patten. An invocation will be pronounced by the Rev. Walter Douglass of Duncan following which there will be an address of welcome by P. P. Duffy, secretary of the Duncan chamber of commerce.

Mr. Patten will respond. Among the speakers who appear on the program are President Nicholson, George C. White, Oklahoma City, district federal engineer for Oklahoma; F. J. Gentry, Enid; Roy L. Embry, Enid; L. C. Hutson, Chickasha; W. S. Robertson, Medford; J. B. Deardorff, El Reno; D. C. Hybarger, Chickasha; Pat Peck, Comanche; A. L. Dunkin, Waurika; J. P. Ervin, an engineer from the

state highway department at Oklahoma City; J. D. Fauntleroy, Fort Worth, district engineer for the federal government; Dr. W. W. Potter, Bowie, Tex.; and John W. Jackson of Duncan.

"FOUR HORSEMEN"
SMASHES RECORDS

The long awaited Rex Ingram production of "The Four Horsemen of the Apocalypse" is coming to the McSwain theatre beginning Monday. This is the picture that cost Metro \$1,000,000 to make, and, from all accounts the \$1,000,000 was well spent, as critics agree that all other efforts at production on a grand scale have been surpassed and record runs have been made in New York, Chicago, Boston, Pittsburgh, Detroit, Los Angeles and other cities where the picture has been previously shown.

Fifty principals and 2,500 extras were engaged in the filming of the photodrama an entire French village and an elaborate chateau were erected to be destroyed under the artillery bombardment of the German invaders, and more than 125,000 tons of masonry, steel lumber and furniture were used in creating backgrounds that are said to reproduce with absolute fidelity the shifting panorama of the story.

Surveys made in the Panhandle of Texas show that splendid roads may be constructed without artificial topping providing they are regularly dragged after each rain.

THREE WELL CHOSEN MEALS EACH
DAY INSURE HEALTHY CHILDREN;
ANALYSIS OF FOOD IS ADVISED

A child between three and ten years of age may be considered well fed if he has plenty of milk, bread and other cereal food, an egg or its equivalent in flesh foods, once a day, a little butter, a small portion each of carefully prepared fruits and vegetables, with a small amount of sweet food. This should be given after his appetite for other foods is satisfied. If any of these is omitted his diet is likely to be one sided.

In the feeding of children too much emphasis is often placed on the foods that they ought not to eat and too little on those that they need. The fact is that even those foods that are considered most unwholesome, such as pies and fried foods, are to be avoided quite as much because they crowd out desirable foods as because they cause digestive disturbances.

The first thing to do, therefore, in planning a day's food is to arrange three attractive meals that furnish all the needed substances and, particularly in the case of young children, something to serve between meals.

For Picking Time.

For this between-meal lunch, milk, or bread or butter, or simply bread, which any healthy child will eat if hungry, is best. If such food is provided and the child has plenty of sleep and fresh air the problem of keeping unwholesome foods from

him often settles itself. In other words, it is far more important to think about what children need than to ponder on what they ought not to have.

It is well to form the habit of analyzing every meal or every day's ration to see that it contains all the desirable kinds of food. This does not mean that every necessary kind of food must be served with every meal, or that if a given kind of food, fruit for example, is omitted from a meal or from a day's meals the results will be serious. It means that variety, the very necessary thought in any meal, must be kept in mind as well as the various groups of necessary foods and their properties.

Milk Favored as Daily Food.

The planning of three meals—breakfast, dinner and supper—the purpose is to serve foods in reasonable quantities to meet all of the needs of the child. Milk should form part of the daily food of every child and it should be a steadfast rule in every home in which there are children that the daily amount consumed amounts to at least a pint and a half.

A bill of fare for breakfast might consist of orange juice, apple sauce, baked pears, prunes or grapefruit. Following this should be served oatmeal, milk toast, or some other kind of cooked breakfast porridge. Toast and butter or bread and butter

'SAVINGS'

Is An Umbrella All You Have Laid By for a Rainy Day?

There are few persons who don't intend sometime to start saving money. But good intentions are worthless so long as they are nothing more than intentions. It's far better actually to save a dollar a week than merely to intend to save ten dollars a week—sometimes. Let us help you make your start. You'll find it far easier than you ever imagined.

COMMON SENSE IS THE GREAT SIXTH SENSE
KNOWN AS THE SENSE OF SAVING.

If at all times you gratify the five senses of Touch, Taste, Hearing, Seeing and Smelling, you won't be able to develop the sense of saving. Deny yourself of trivial pleasures today, and start a saving account. It will insure your future against worry and want.

Think what it would mean if every individual were compelled to build up a reserve fund to carry them through the rough places of life.

Our shares are sold on easy payments
—let us explain our plan.

Cold Spell Brings Disaster To Fruit In Pacific States

(By the Associated Press)
LOS ANGELES, Jan. 20.—A cold wave, bearing temperatures officially reported as between 20 and 23 degrees, was prevailed throughout southern California last night and early today. N. B. Hersey, director of the United States weather bureau here, declared he believed the cold spell had been "very disastrous" to southern California's ungathered citrus crops.

BREAK CHEST COLDS WITH RED PEPPER

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down in to colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowley's Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowley's."

OLD DOBBIN NOT OFFCAST YET, IS RECENT REPORT

Horsefeed can again be used for something besides hay rides and hotel mattresses.

This is the belief held by managers of local wagon yards who declare that at last the horse has turned and once more may take his place beside the motor bus as a popular motive power for traffic.

Once again, Old Dobbin is coming back into his own and is hanging the "au revoir" sign on gasoline in some localities, consigning that article of fuel back to the cleaning establishment and makers of boot-leg whisky.

More buggies and delivery wagons were sold in Oklahoma in 1921 than any time in the last five years, reports from over the state indicate. Local dealers agree with this statement.

Over \$250,000 in carriages and delivery wagons were purchased in the state last year. Dozens of business houses have been finding some place for the horse in their delivery scheme again, it is said. Packing houses in New Orleans, Memphis and Little Rock have ordered full new wagon equipment to replace their motor transportation systems, it is said. The car, however, it was pointed out, still maintains its place of usefulness for rapid delivery or transportation. The truck is also an invaluable article for heavy drayage in city and on the farm.

After the war, old Dobbin and all his kind fell to the bottom of the market. Now prices on horses may come back to near the old standard and although dealers have said "horses are bound to be supplanted by autos eventually" they do not agree that this time has arrived.

In some sections, horses are again coming into the light of "fashion de luxe." When the auto

AT ITS BEST

The strongest complement ever paid to Scott's Emulsion is the vain attempts at imitation. Those who take cod-liver oil at its best, take Scott's Emulsion—Scott & Bowne, Bloomfield, N. J. ALSO MAKERS OF KI-MOIDS (Tablets or Granules) FOR INDIGESTION

truck made its inroad it is estimated that over 250 carriage and wagon works closed up or were converted into motor establishments.

DOINGS OF THE VAN LOONS—Perhaps Grace imagines Father needs Exercise too

By F. LEIPZIGER

Feeling Grippy? Cold Coming On?

DRY, tickling sensation in the throat, headache, feverish, eyes ache. Don't play with that on-coming cold. Get Dr. King's New Discovery at once. You will like the way it takes hold and eases the cough, loosens the phlegm and relieves the congestion in the eyes and head, and soon breaks up the most obstinate attack of cold and gripe.

Children and grownups alike use it. No harmful drugs, but just good medicine for colds, coughs and gripe. Sold by your druggist for 60c.

Dr. King's New Discovery For Colds and Coughs

Tired Out in Half a Day? You wouldn't be if your bowels were acting regularly. Try Dr. King's Pills for sluggish bowels. You'll keep fit for work. At all druggists 25c.

PROMPT! WON-GRIFE Dr. King's Pills

Efforts of Chinese to Mimic Americans Causes Some Alarm

SHANGHAI, Jan. 19.—Efforts of certain Chinese of Shanghai to launch out in imitation of great American trading centers with the formation by wholesale of stock and brokerage exchanges have been fraught with so much financial havoc that not only has the Peking government set about to take action, but the foreign police authorities of the International Settlement as well, has begun to show concern.

The past year in Shanghai has seen the formation of scores of "exchanges" ostensibly opened for the purpose of trading, generally in staples, but also in every form of commodity. Operating without restraints of any kind, shares, stocks and commodities of every sort have been dealt with in the abandon of a get-rich-quick era which now has begun to prove most distressing to many victims.

Portions of a recently issued official Shanghai police report on the situation are given as follows: "Speculation mania took deep

root after the rapid formation of many exchanges and persons who in their saner moments would never have consented to part with their cash unless for some safe and profitable investment were attracted by the glamor of large fortunes.

"On the other hand not a few families were ruined and cases of suicide and attempted suicide occurred. The situation presented a strong temptation to employes in places of trust to make their fortunes by what appeared to them to be a few simple transactions with the temporary loan of their employers' money.

"Numbers of employes absconded after having embezzled sums of money. A rough estimate of the total amount of money thus reported lost places the figure well over \$1,000,000. In addition men who had hitherto been respected for their integrity and regarded as strong financially disappeared after incurring liabilities they were unable to meet.

"It is almost imperative that action should be taken as soon as possible to bring these establishments under control."

Chaldean astrology taught that heavenly bodies influenced disease.

RAGMAN THINKS HE IS KINSMAN OF NAPOLEON I

(By the Associated Press)

PARIS, Jan. 20.—One of the rag and bone pickers of Paris has just made known his belief that he may be a descendant of the Great Emperor Napoleon I. His name is Louis Napoleon Eugene Maximilien Laurent Masson. He is called "Napoleon" and gives as the reason for his use of that name the following explanation:

"My father was a shoe cobbler and second-hand dealer who used to rescue dogs' and cats' bodies from the Seine to sell for making grease. My mother was a traveling mender of pots and pans.

"My mother's mother was Rosalie de Mandel, of Spanish origin and noble. Her husband, grandfather, named Firmin, was from Ireland. They kept an inn at Clethy, in the department of Pas de Calais, where coaches changed horses.

"One evening the Emperor arrived at Clethy and my grandfather warned him to go no further as there were English soldiers about. My grandfather fled and hid in a ravine. My grandmother hid Napoleon in the lower part of our two storied cellar until he could leave in safety. When my mother was born, my grandfather always refused to recognize her as his child, declaring that Napoleon was her father.

"You will find a reference to Napoleon's stay in Clethy in Marshal Bertrand's Memoirs with something about the child that resulted from it.

"That's why I am better known as Napoleon, and with reason."

CAPTAIN FISHER WILL NOT MAKE ACTIVE CAMPAIGN

Captain W. H. Fisher, candidate for Mayor, states that he will not make an active campaign for the office, though he wants his friends to be active in his behalf.

"I have one office," the Captain said, "and it would be the wrong thing for me to do to neglect this office to run for another. I shall make an official of your city who will give a straight forward, upright administration if elected, and every one will get fair and just treatment."

Every man possesses something that some other man envies.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach just like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results. Adv.

Farmers' Column By Byron Norrell

The Holdenville Tribune says that town was so well pleased with the poultry show held there recently that it will go after the state show two years hence and try to locate it there. Good for Holdenville. Nothing like going after things. Here's hoping she will get the show.

Some weeks ago I bought a bred New Zealand Red doe. Soon after she brought a litter of five. They have grown like mushrooms and a few days ago we had fried rabbit for dinner. It was only five weeks old but weighed more than a pound dressed and was fine eating. This is my first experiment with rabbits, but I am well pleased. A rabbit is certainly quick meat and is very little trouble to raise.

Sometime ago I mentioned the fact that R. L. McGuire had kept a lot of summer eggs packed down in waterglass. Here is an item that indicates good profits realized by another man by the same method:

Practical profits from the preservation of eggs in the summer time as urged by experts at Oklahoma A. and M. College, are cited by C. H. Hubbard, farm demonstration agent for Wagoner county, in the case of Muri Stoner of this county. Stoner, last summer, preserved forty dozen eggs in waterglass. Eggs, at that time were selling at 10 cents a dozen; when those eggs were marketed they brought 45 cents. Deducting \$4. cost of the eggs, \$3.75 for the waterglass, and \$2.50 for a barrel, the profits were \$7.75.

The probability of a pickle factory locating at Ada is good news for all concerned. The climate and soil here makes possible the growing of unlimited quantities of cucumbers and this would open a new field for the farmers. A good field of cucumbers with a certain market would mean many dollars to the growers and give another chance to practice diversification. It is easy enough to preach diversification to the farmers, but not so easy to provide an outlet for their produce after they raise it. A pickle factory would be one means of attaining this much desired end.

Here are some pointers for those who may want to build a hot bed: Select a well drained place protected on the north, if possible. Make an excavation six feet long, three feet wide and one and one-half feet deep. Fill in the excavation as follows:

Two inches ashes or ground rock. Eight inches straw. Eight inches fresh horse manure. One inch straw. Five inches light sandy soil. On the north side of the bed, place a board fifteen inches high. On the other three sides place boards twelve inches high. The heat will run very high in the bed. It will be best to plant no seed for at least twenty-four hours, as the germinating power of the seed will be destroyed by the high heat.

Lay off the bed in rows and plant the seed one-half inch deep. Cover the seed with well pulverized soil. Water the bed (with the water that is lukewarm) early in the morning so that the moisture will have time to evaporate and not chill the young plants.

A canvas may be used for protection from the cold if glass is not used. In rainy weather it will be well to cover the frame with doors or heavy boards so that the water may be drained away from the bed.

On sunny days the canvas may be removed for a few hours.

Winter Poultry Pointers. Good warm wheat makes a nice breakfast for the biddies. Skim milk is thin looking stuff, but it may be put to good use in the poultry yard.

Use a little more clean litter on the floors. Keep the fowls hard at work. It is a form of health insurance.

In poultry raising the breed is important, but the man or woman behind the breed is more so.

For hatching purposes take the eggs from the hens that lay best. Build up; never let the standard down.

As a rule, eggs from two-year-old hens give better satisfaction than those from younger stock for the earliest hatching in the spring.

Fowls that have been running out may have needed no grit and may even have got along without oyster-shell, but now that they are confined all or much of the time, a supply of these important ingredients of the ration should not be neglected.—Farm Life.

Willard School Notes (Too late for school page)

Miss Kennon entertained the chorus girls and boys at her home on Main street last Friday. After playing games, delicious refreshments were served.

We had no school Thursday on account of the building being so cold. Work was resumed today.

The fifth, sixth and seventh grades were defeated by the fourth grade in spelling matches. The eighth was the only room capable of defeating them.

Mr. Bolton visited Hays school last week.

Louise Hardage has been absent from school two weeks.

Gwin Williams of the sixth grade has moved to the country near Byrd's Mill.

W. T. and John Cooper will not be with us this next term as they have moved to Wynnewood.

The boys first team of basketball played Hays basketball team, the score being 11 to 9 in our favor.

Wallace To Expose Graft Methods In Use Among Lenders

(By the Associated Press)

WASHINGTON, Jan. 20.—Determination to lay before the national agricultural conference next week "the thoroughly selfish grafting methods used by many companies of different sorts which loan money on farm mortgages," was announced today by Secretary Wallace.

Declaring that many farmers who have never done so before are having to mortgage their lands in order to get necessary money, Secretary Wallace said: "It is discouraging to note that many companies and individuals are in the business of loaning money on farm mortgages and are taking advantage of the farmers' distress to extort heartless rates of interest and terms of loans which cannot be justified."

REPORT ON ST. LAWRENCE REFERRED TO COMMITTEE

WASHINGTON, Jan. 20.—The report submitted to the house committee on the proposed St. Lawrence waterway was referred by Speaker Gillette today to the house interstate commerce committee of which Representative Winslow of Massachusetts is chairman. This statement of a controversy which had arisen over referring the report was declared satisfactory by supporters of the waterway project.

Try a News Want Ad for results.

A REAL STORY WITH A REAL MORAL THERETO

Cleveland Hall, a well-known insurance man of Ada, a few days ago, inserted a small Want Ad in the Ada Evening News. On the evening the ad appeared, he received forty-seven telephone calls in reply to it. The next day he received twenty-six. The third day he received a night letter from California, offering to meet his wants.

What does this show? That if you have anything anybody else wants, or you want anything anybody else has, there is a certain way to get results. Because that other person happens to live across the continent makes little difference.

IRELAND ALMOST FREE OF BRITISH TROOPS

DUBLIN, Jan. 20.—All the British auxiliary police except two battalions have now left Ireland. These two will leave tomorrow. The evacuation of the British army in Ireland began in earnest today. Ships were waiting at Dublin to convey the troops which were scheduled to arrive from inland during the course of the day by seven separate trains. Eight mail airplanes, with wireless operators, left for England this morning.

Domestic life and affection is very highly developed among wild ducks.
